## Certificate of Conformance Certificate of Analysis

Manildra Harwood Sugars manufactures a range of sugars and sugar related products. All our products are subject to extensive and rigorous analysis to detailed specification limits during the refining operation and on the finished product.

Due to the sensitive nature of these analyses, the results are considered confidential and it is MHS policy to not release results to third parties. As such we are unable to provide Certificates of Analysis (CoA) unless results form part of a contractual arrangement (eg: payment on the brix levels in liquid sugar). MHS operations including analysis and results are available for audit during an onsite visit at an agreed time.

MHS are happy to provide a Certificate of Conformance (CoC) for all deliveries and these are available upon request. The CoC is a guarantee that the product has been tested to and meets the requirements of the relevant specification.
