

PERMANENT OPPORTUNITY – BROADWATER FUGAL OPERATOR

What's involved?

The Fugal Operator is a key member of the Production Team at Broadwater Mill. Reporting to the shift supervisor, the role of the fugal operator is to plan, prioritise and monitor the fugal station processes.

The fugal station incorporates the HG & LG pan coolers and crystallisers, HG & LG fugals, sugar drier, re-melt system, sugar floor and sugar bins, and the magma, molasses and syrup systems.

The key function of the Fugal Operator is to process massecuites into sugars and syrups, to manage the quality of these products and monitor sugar floor operations.

In order to support organisational growth the fugal operator is expected to actively support and explore opportunities for continuous improvement projects to facilitate more efficient and safe operations and eliminate unproductive work practices.

What we are looking for:

- Mechanical Aptitude;
- Sufficient reasoning ability to make sound decisions based on analysis and evaluation of information, experience and judgment;
- High level communication skills both written and verbal;
- The ability to monitor and control several processes simultaneously;
- Experience in the preparation and implementation of risk assessments and actively supporting Work Health & Safety principles ;
- Initiative and demonstrated ability to learn;
- Flexibility to work rotating shift roster and be available for overtime;
- General computer skills, including the use of Microsoft Word, Excel and Outlook.

How to apply

To be considered for this role, please send a cover letter outlining your suitability for the role and resume to jobs@sunshinesugar.com.au or see Gregg/Michelle. Applications close 17 March 2024.
